Call for Speakers

EMS-University 2023 Gillette, Wyoming

Campbell County Health is hosting the 20th annual EMS University **May 4-6, 2023**. We would like to invite you to submit a proposal to be a presenter at next year's event.

EMS University impacts our community through an immersive educational experience for emergency responders around the state of Wyoming. It is designed to provide continuing education credits for emergency medical technicians, paramedics, first responders and industry safety personnel. The annual conference attracts approximately 250 attendees, but in 2022 our attendance grew and we would love to continue growing.

We would like to invite you to join us and share your own experiences and expertise. You will not only be making a valuable contribution to the industry, but to the personal lives of dedicated medical professionals.
We are looking for speakers who can provide:

- Passion about their profession and sharing knowledge
- Impactfulness and creativity
- First hand experience
- Excitement to engage an audience
- Knowledge on leading-edge information and emerging trends in the field
- Practical strategies for improvement and innovation
- "How to" best practices and case studies, including tangible implementation tools

If this sounds like you, we ask you to consider sharing time with us at our 2023 event.

Proposals for the 2023 EMS-U conference must list presentation content and learning objectives. We are especially interested in presentations that are applicable to, and geared toward, prehospital emergency medical care. Our attendees have expressed a desire for presentations that engage with "real world" application.

Follow the link listed below to submit your proposal

Call for Speakers Questionnaire - Google Forms
