

PLAIN-LANGUAGE SUMMARY OF FINANCIAL ASSISTANCE POLICY

Overview

Campbell County Health is committed to providing emergency and medically necessary healthcare services for free or at discounted rates to certain patients who are uninsured or have limited insurance available. Campbell County Health strives to make sure that the financial capacity of people who need health care services does not prevent them from seeking or receiving care. This is a summary of the CCH Financial Assistance Policy (FAP.)

Availability of Financial Assistance

Please note there are certain exclusions that apply, including, but not limited to elective services, cosmetic services, balances covered by other funding sources and failure to cooperate in securing alternative funding sources.

Eligibility Requirements

Financial assistance is generally determined by a sliding scale of total household income based on the Federal Poverty Level (FPL). If your household income is at or below 200% of the Federal Poverty Guidelines, 100% of the account balance may be written off. If the household income is between 201% and 250% of the Federal Poverty Guidelines 75% of the account balance may be written off, and if the household income is between 251% - 275%, 50% of the account balance may be written off.

Financial assistance may be available in other limited circumstances, depending on the size of the patient's medical bills and whether the patient meets other criteria for eligibility. If you have sufficient insurance coverage or assets available to pay for your care, you may not be eligible for financial assistance. Please refer to the full policy for a complete explanation and details.

A patient who qualifies for assistance under the Financial Assistance Policy will not be charged more for emergency or medically necessary care than the amounts generally billed to patients having insurance covering such care.
